

ADVANCED TECHNOLOGY

SINCE 2017

Profile Company

About Us

AdvaTech functions actively in the market since 2017.

During 1-year of activity we developed from a small firm into a high contractor employing about 30 people that is a leader in the market of telecommunication enterprises.

Apart from the basic array of services, we offer services and solutions that are specifically tailored to satisfactorily meet the needs and requirements of our clients.

The main area of the company's activity is providing comprehensive telecommunication and IT solutions.

We base our services on modern technologies and systems of the world leading manufacturers.

We don't limit ourselves to provide services and solutions, but we also extend relevant support to our clients from the beginning and through the whole of activity time.

We are also engaged in construction and technical support of telecommunication infrastructure in customer premises and buildings. Our maintenance team is a great asset for us as they are able to diagnose, identify problems and repair them in short time.

We respond to our clients' timely for new needs, expansions or upgrades.

AdvaTech gives utmost importance to the as-built documentation during the implementation of projects.

Our Mission

AdvaTech strives to constantly improve the services it provides, in terms of both competitive prices and high-quality standards.

Timeliness and compliance with the highest standards help in individual approach to every Client and to adjust our services to Clients' current needs. AdvaTech assists in achieving market success by providing comprehensive telecommunication services which impacts positively in the business operation.

Our Values

Our clients are the assets of our company. They are our incentive in our determination in seeking **new directions of development** and constantly strive to render services of highest quality.

AdvaTech values revolve around:

Respect

We respect our customers, our business partners, and our colleagues. We do not act in a way that harms any person or community. We do not allow harassment or discrimination in our business.

We protect our reputation. We value **our achievements** and are proud of our work.

Fairness

We compete fairly for our customers' business.

We reject corruption. We do not look for special treatment.

We do not make political donations and we do not trade in political influence. We comply with the laws of the countries in which we operate. **We pay our taxes.**

We keep our promises and expect the same of others.

Sustainability

We minimize any negative impact on the environment.

We do not put the health or safety of anyone at unnecessary risk.

We sell products that are safe and give our customers the information they need to use them safely.

We think about the **long-term effect** of our actions.

We protect information that is confidential.

Employees

AdvaTech has a staff of **qualified and experienced** team of young people.

The working environment in the company is such that it is **highly conducive** to sound friendly relations and cooperation between the employees that helps in achieving work at the best levels.
